microscope support and special dedicated software, which will make your work very ergonomic, fast and easy with increased efficiency.

The microscope swivels to the side for easy sample access and is not only easy to align in X and Y, but also in Z

Microscopes can be difficult to setup so that they are both comfortable to use and provide a high quality image. The EZ microscope support separates the principle adjustments of eye height, X & Y & Z alignment, magnification and focus so that each can be precisely made without losing the other. It retains our extremely useful and unique feature of allowing the microscope to be moved out of its operating position for easy access when loading samples.

Our **quick release work holders** make exchanging workholders a very fast procedure. The fact that the **Condor Sigma RMU** can be configured with 1 to 6 heads and can go up to 200kgf means that you may never have to switch cartridges.

EZ Joysticks

A great strength of the **Condor Sigma software** is that it is completely open, allowing you to

easily customize it for the widest range of tests. It supports various authorization levels and also the intuitive operator screens ensure complete documentation of the test protocol and provide preset configurations.

The Condor Sigma monitor support can tilt, is adjustable in height and can be folded inside for easy transportation of the machine.

Practical storage system for consumables

The Condor joysticks are ergonomically friendly, offer easy control for X, Y, Z manipulation and tool rotation to move the stages to the desired position. The joysticks feature 12 logically arranged buttons for increased operator efficiency. All important software functions can be controlled by a single touch of a button to ensure simplicity without the need for the operator to look away from the microscope. This, combined with the option of keypad control, makes testing a stress free operation.

Debris is kept away from the moving parts without the need for sliding seals

The debris trays are easy to empty
