SMTconnect Germany 2019

May 7-9, 2019 in Nuremberg - Hall 4A, Booth 147

The trade fair SMT Hybrid Packaging takes place this year under a new name SMTconnect with the new motto: "Solutions for electronic assemblies and systems". At our booth 4A/147 we will introduce you to interesting automated bond testing solutions for high forces, large working areas and lead frames.

Sigma HF is a bond tester for forces up to 1000 kgf

Sigma HF – Come and see the new version of our High Force bond tester!

The next millennium has begun. XYZTEC has developed a new test system capable of applying accurate shear, pull and push forces for automotive battery applications and applications requiring larger working area or higher forces up to 1000 kgf.

Technology leader in bond testing worldwide

Condor Sigma MAG is a fully automatic magazine handler for lead frame testing

Sigma MAG – Magazine handler live in action!

By combining our state of the art Sigma with an independent lead frame loader/un-loader, we can offer a hands-off fully automated bond test solution for testing all sizes of lead frames, cassettes, magazines, PCB's, Flex and boat carriers.

Use our ticket service

Technology leader in bond testing worldwide

We are both delighted and disheartened to announce that XYZTEC's CTO Bob Sykes retires in April 2019. Since joining XYZTEC in 2009 Bob has made a major contribution in the company's growth, with XYZTEC transcending from one of the important players in the bond testing market to its number one spot today, both in technology and worldwide annual sales. The **Condor Sigma** and several XYZTEC **patents** being among his major accomplishments.

His retirement is not really a goodbye. Bob will remain active for XYZTEC towards the future, but obviously less intensively. We wish Bob all the best in this next chapter of his life.

We are hiring!

We are looking for an **Electronic Engineer** for our HQ in Panningen, The Netherlands. The job description below is in Dutch, as the job opening is for our Dutch office. However, good English capability is required.

We are hiring!

ELECTRONIC ENGINEER

Is Fully Automatic Bond Testing Possible?

Advances in Thin, 3D and MEMS Die Bond Strength Testing

Shear testing copper pillar

Fracture strength of thin wafers and die

Centralized database for enhanced security and SPC options

Full Automation with Improved Pattern Recognition, Fiducial Marks Analysis, Wire Detect and Failure Mode Analysis

Coating and film testing

Latest software release enables automatic grading

Vision enhanced materials testing

XYZTEC makes lid pull easy

Condor Sigma W12 with large heater stage

How to: Wire Pull

Get 10% off your next tools order

Pull testing bumped wafers

SMD gull wing leads testing

Automation: matrix bond testing made easy

Fully integrated solution for automated wafer testing

In bond testing, size does matter

XYZTEC goes from strength to strength

Automatic wire detect

Highly reproducible stud pull tests are possible

What is the quality of your coatings?

Loading samples has never been so easy
