

## XYZTEC at Semicon Korea

29 ЯНВАРЬ 2019

Last week, XYZTEC was exhibiting at the Semicon Korea 2019 from 23th of January to 25th of January in Seoul. It is one of the largest exhibitions in Asia, with over 50.000 visitors, for the production of semiconductors and flat panel displays as well as for the photovoltaic industry, the nanoelectronics and micro technology.

XYZTEC was presenting its best seller bond testers in Asia, the **Sigma** and the **Sigma W12** with **EFEM** integration and its latest automation features.

If you missed the show and still would like to see the Sigma, please visit us at one of the **upcoming exhibitions** IMAPS Device Packaging USA or Semicon China in March 2019.

Get an impression and watch the 360-degree video.
